To collaborate with the GitHub retreat-dev as a new/existing user
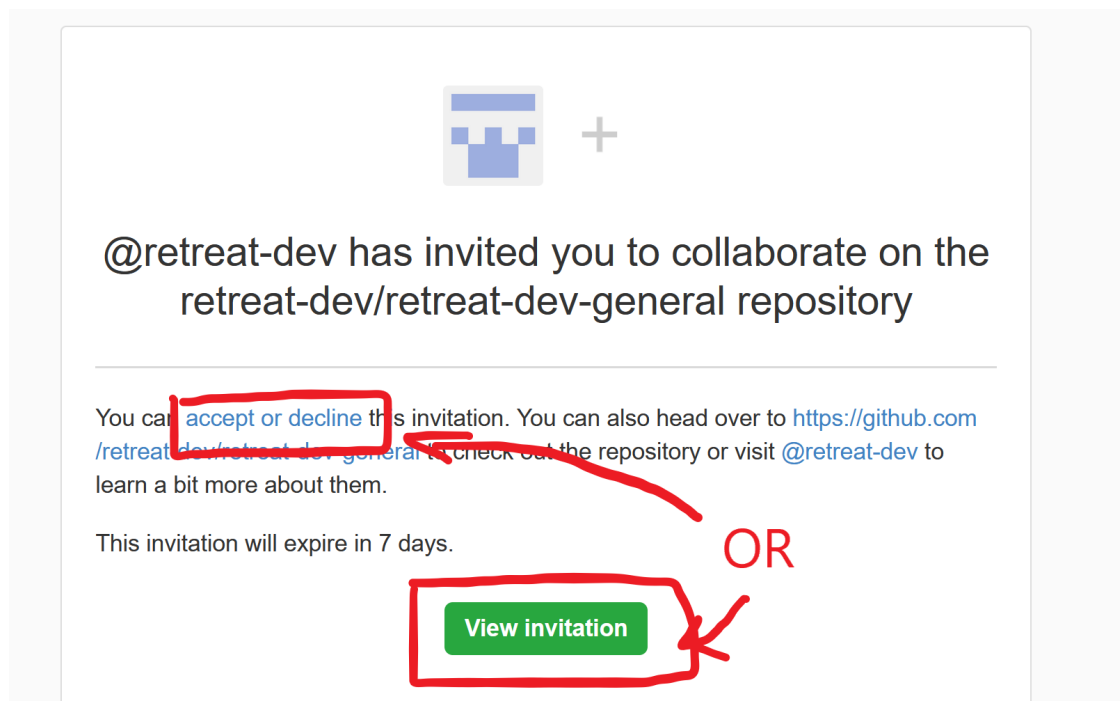

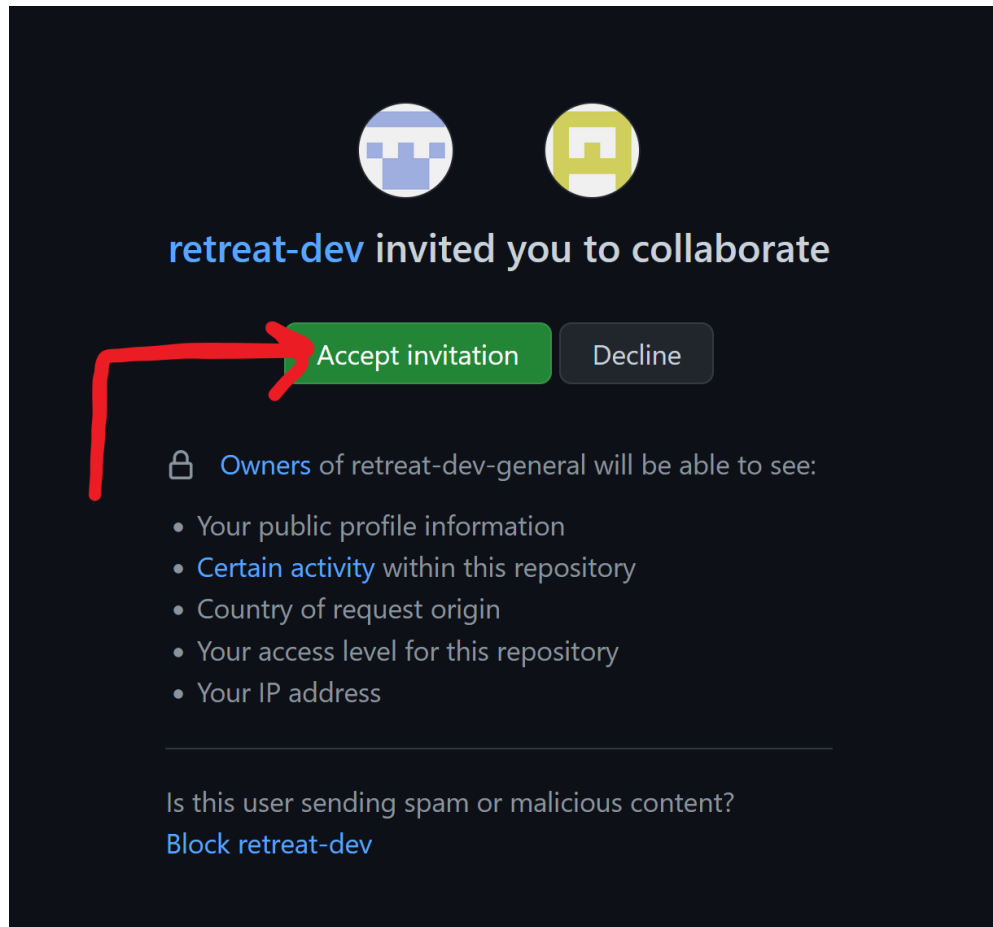

Version 1.0

Introduction

This document is for a new user who has not logged in GitHub and received a GitHub project invitation.

Accept the GitHub Invitation as a new user

While receiving the GitHub invitation via the email and the contents of the email is looks like:

Then, click the "accept or decline" link or the "View Invitation" button to the page that shows the details of the accepting the invitation, likes:

Click the "Accept invitation" button as a new user (never has a GitHub login yet), the page will land on the creating a GitHub new user:

Proceed to create a new GitHub account and a puzzle verification:

Email preferences

☐ Send me occasional product updates, announcements, and offers.

Join a free plan

GutHub will send a code to verify the user email:

You're almost done!
We sent a launch code to

→ Enter code
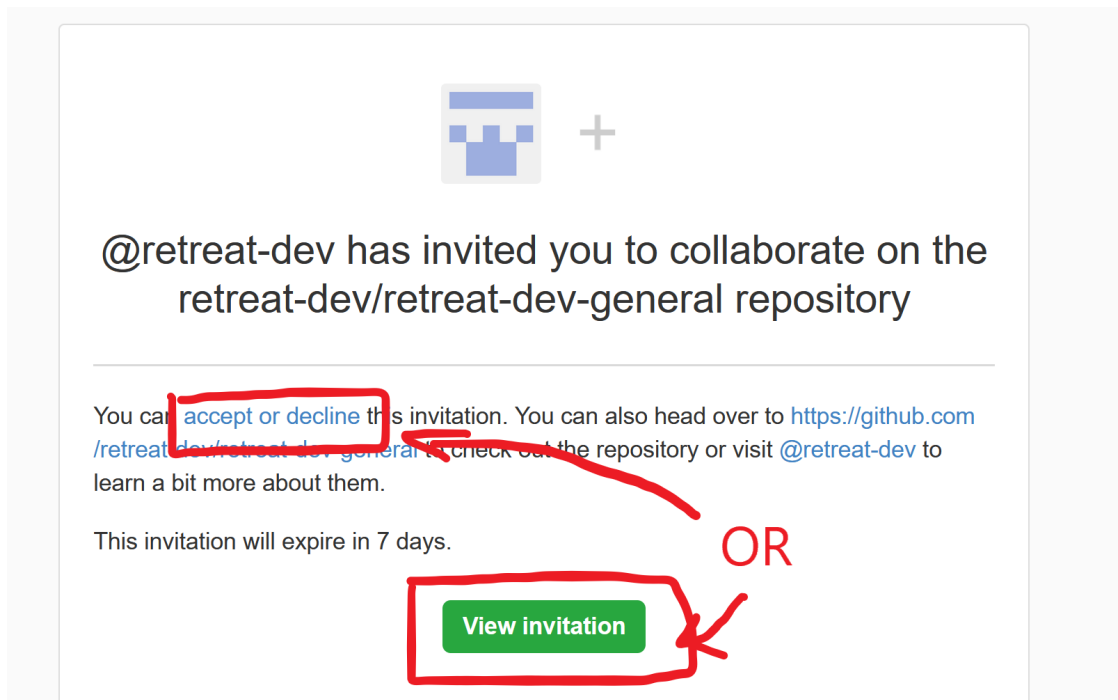

Didn't get your email? Resend the code or update your email address.

That is it.

Accept the GitHub Invitation as an existing user

It is similar with the new user from receiving a GitHub invitation, likes:

Then, click the "accept or decline" link or the "View Invitation" button to the page that shows the details of the accepting the invitation, likes:

Click the "Accept invitation" button and land on the GitHub invited project default page.
